

canvas

Use this framework to empathize with a customer, user, or any person who is affected by a team's work. Document and discuss your observations and note your assumptions to gain more empathy for the people you serve.

Originally created by Dave Gray at

Develop shared understanding and empathy

Summarize the data you have gathered related to the people that are impacted by your work. It will help you generate ideas, prioritize features, or discuss decisions.

WHO are we empathizing with?

Who is the person we want to understand? What is the situation they are in? What is their role in the situation?

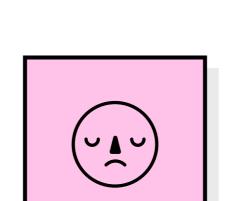

What do they HEAR?

What are they hearing others say? What are they hearing from friends? What are they hearing from colleagues? What are they hearing second-hand?

frustrations, and anxieties?

GAINS

What are their wants,

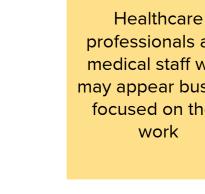

What do they need to do differently? What job(s) do they want or need to get done? Research different liver health analysis methods online and through other sources

Research different liver health analysis methods online and through other sources

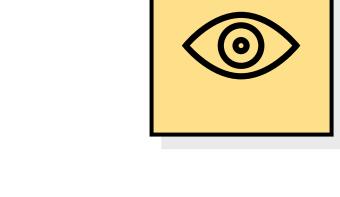

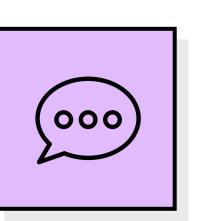

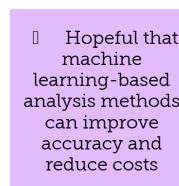

What do they SEE?

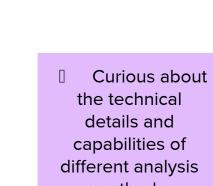

What do they see in the marketplace? What do they see in their immediate environment? What do they see others saying and doing? What are they watching and reading?

What do they SAY?

What have we heard them say? What can we magine them saying?

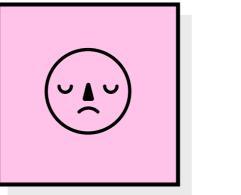

GOAL

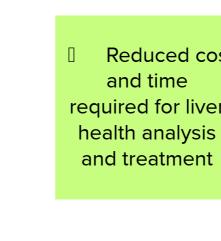

What are their fears,

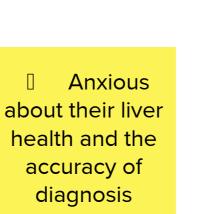

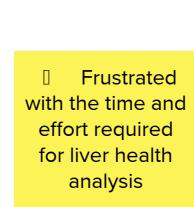

needs, hopes, and dreams?

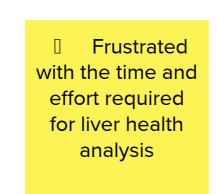

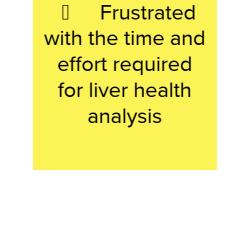

What other thoughts and feelings might influence their behavior?

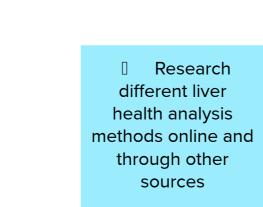

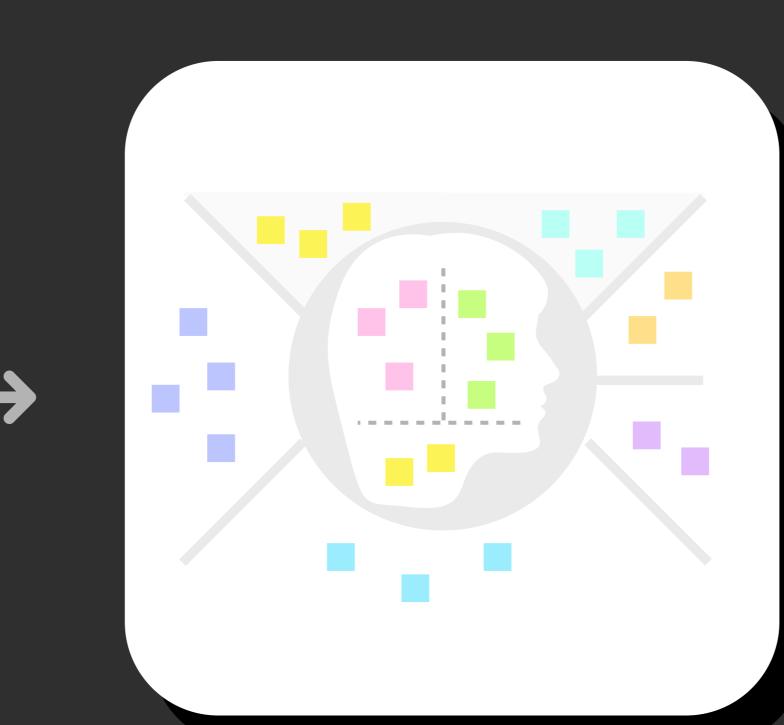

What do they DO?

What do they do today?

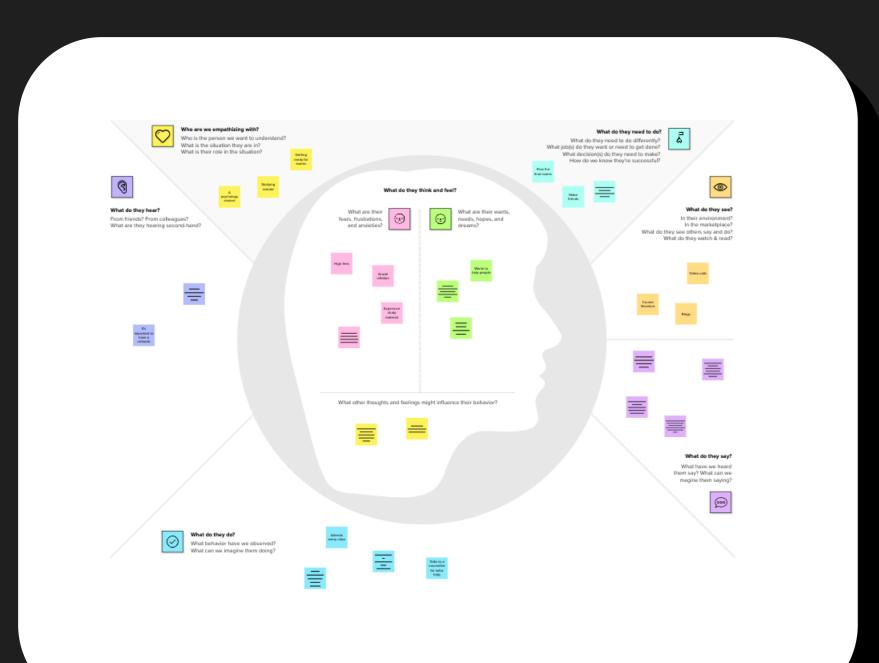

What behavior have we observed?

What can we imagine them doing?
